FOUND BOOKS DEEP DOWN IN DUG-OUTS

American Library Association Books
Sure Reach Soldiers, Says
Raymond Fosdick

"I found the books of the American
Library Association everywhere in
France," says Raymond Fosdick, chair-
man of the National Commission on
Training Camp Activities, who has just
returned from an extended trip over-
seas, during which he conducted a
thorough investigation of the work
being done by the various war work
agencies.

"I found them in dugouts thirty or
forty feet below ground, in cow-barns
where shrapnel had blown parts of
the roof away, as well as in the sub-
stantial huts and tents far back from
the firing line.

"I have found them in hospitals and
dressing stations; in scattered villages
in the training area where our men are
billed and even in the remote parts
of France where the forestry units are
carrying out their lonely, but efficient
and essential work. Your books are in
continual demand from the time the
soldiers arrive in camp in America
until they come back home after serv-
ice over there."

The A. L. A. library service has
grown tremendously within the past
few months and millions of books
have been distributed wherever sol-
diers and sailors are quartered, on sea
or land.

"Need is the only creed over there,"

mass meetings have been held in the

paign to open on November 11.
